Database Management Systems, Operating Systems

Technical Skills

- **Programming Languages:** Python, Java, JavaScript
- **Web Technologies:** HTML, CSS, Flask, React, jQuery, Bootstrap.
- **Databases:** MySQL, NoSQL
- **Tools:** Visual Studio Code, Eclipse, MySQL Workbench

Courses

Full Stack Development in Java.
- **Frontend:** HTML, CSS, JavaScript, jQuery, Bootstrap, ReactJS, AngularJS.
- **Backend:** Java, Hibernate, Spring
- **Database:** RDBMS, SQL, NoSQL.

Projects

Portfolio Website *HTML, CSS, JavaScript*
- Designed and developed a personal portfolio website showcasing my educational background, projects, and certifications. Utilized HTML, CSS, and JavaScript to create an interactive and visually appealing platform that highlights my technical skills and achievements. The website serves as a comprehensive digital resume, enhancing my professional presence and accessibility.

Twitter Sentiment Analysis *Python, HTML, CSS, Flask, Data Analysis, Machine Learning*
- Analyzed tweets to determine the sentiment or opinion expressed in them, such as positive, negative, or neutral. This analysis can provide valuable insights into public opinion, trends, and user sentiments about various topics or events.

Calculator *HTML, CSS, JavaScript*
- Created a calculator using HTML, CSS, and JavaScript. Designed the layout with HTML and CSS for a modern look. Implemented arithmetic operations and user interactions with JavaScript. Features include responsive design, clear/reset functionality, and basic arithmetic operations.

Leadership and Volunteering

Technical Quiz *Jun. 2023*
- Received the Best Event Management Award for orchestrating a successful technical quiz. showcasing organizational skills and effective coordination.
